## Wireless Touch Keyboard K400

**For wireless control of your laptop—even when it's connected to your TV.**

- Logitech® Advanced 2.4 GHz wireless connectivity with 10-metre range (33 feet)\*
- Large 9-cm (3.5-inch), built-in touchpad with multi-touch navigation and large left- and right-click buttons
- Plug-and-play setup with Logitech® Unifying receiver
- Whisper-quiet, low-profile keys with bold, bright white characters and a UV coating
- 12-month battery life\*\* and on/off switch

Logitech® Wireless Touch Keyboard K400. For wireless control of your laptop—even when it's connected to your TV. You can control your laptop without getting up from the couch thanks to the 10-metre (33 feet) wireless range. The large 9-cm (3.5-inch), built-in touchpad with multi-touch navigation makes vertical and horizontal scrolling intuitive. Setup is simple, too. You just plug the tiny Logitech Unifying receiver into a USB port—no software needed. You can even add five more compatible devices to the same receiver. The sleek, low-profile keys feel good and barely make a sound. And you can enjoy it all for up to a year without the hassle of changing batteries.

\* Wireless range may vary due to environmental and computing conditions.  
\*\* Keyboard battery life may vary depending on your use.
