

Mio Spirit 480

Full of sophisticated essentials.

The Mio Spirit 480 sets new standards in routing and navigation convenience. Advanced routing technologies like IQ RoutesTM and LearnMe ProTM provide the best routes while the new Parking Assistance feature gives you greater convenience in finding car parks, so for the essentials in navigation the Spirit 480 meets your needs on the roads.

IQ RoutesTM uses real-life information collected from millions of drivers to optimize the route that is calculated: giving you the optimal way, any time of day. The enhanced LearnMe ProTM monitors and learns your driving style, providing you with personalised routes to suit your preferences. You will see the improvement in your routes and estimated time of arrival on the screen.

The Spirit 480 has been designed to make getting to your destination a lot easier. The new Parking Assistance feature automatically shows a list of parking spaces when you are within 1km of your destination, so you don't have to search for a nearby car park. To find where you want to go quickly and easily, Keyword Search works in the same way as you search online: simply enter any word and it brings up results in order of their proximity to your current location. Use combinations of places and keywords to get even more accurate results.

Accuracy of maps is essential. With the Spirit 480 you will benefit from the 30 day Latest Map Guarantee, which ensures you have the latest map data on your device when you buy a new Mio navigation device.
