

## 300Mbps WiFi Range Extender with AC Passthrough

### TL-WA860RE

#### ◎ Features:

- Greatly extend existing wireless coverage to eliminate “dead zones”
- Extra outlet makes power available for other electrical devices
- Work as a wireless network adapter, providing wireless connectivity for your Ethernet-enabled devices
- Wireless N speed up to 300Mbps
- 2 fixed external antennas provide excellent WiFi coverage and reliability
- Miniature size and wall-mounted design make it easy to deploy and move flexibly
- Easily expand wireless coverage at a push of Range Extender button
- Smart Signal Indicator Light help to find the right location to place the range extender
- Profile function remembers previously connected wireless networks
- Supports domain name-based login (<http://tplinkextender.net>) for advanced management

#### ◎ Description

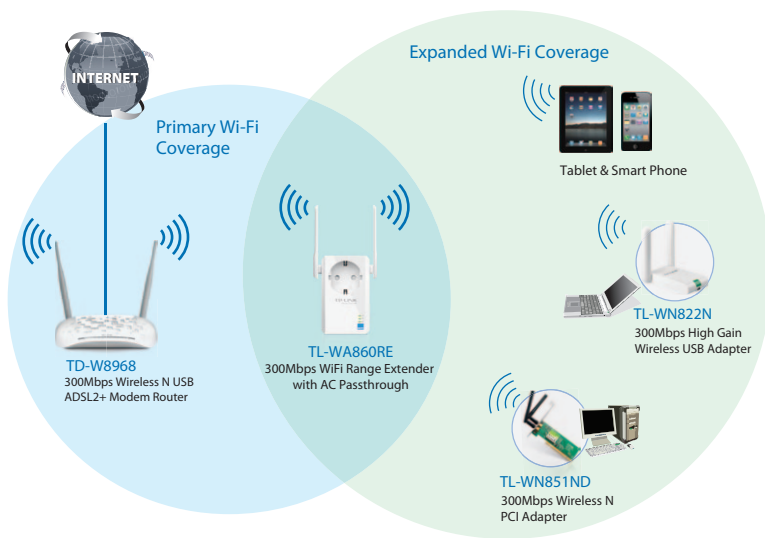

TP-LINK's TL-WA860RE is designed to conveniently extend the coverage and improve the signal strength of an existing wireless network to eliminate “dead zones”. With 300Mbps wireless N speeds, Range Extender button, miniature size and wall mounting design, extending a wireless network has never been easier. In addition, its extra outlet makes power available for other electrical devices. What's more, its Ethernet port allows the TL-WA860RE to act as a wireless adapter to turn a wired device into a wireless one.
